

Creative Activity

Creative activity is particularly emphasized at Windsor Mountain as a vital force in the business of growing up. The students are encouraged to follow up a variety of artistic channels as a means of self-expression and enjoyment.

Dramatics

One of the most popular activities is Dramatics, which is part of both curricular and extracurricular programs. The Drama course, open to all students, covers the history of the various dramatic forms as well as a study of techniques. Members of this class stage several student-directed productions throughout the year and often supply their own stage sets and costumes.

Ten plays are presented during the school session. These include foreign language productions, sponsored by language classes, and plays for special occasions, such as Christmas and Graduation. The Seventh and Eighth Grades

The art studio is unusually equipped for a variety of art activities
